Professional Summary

With over four years in the Information Technology sector, I am a seasoned Data Analyst and Frontend Developer currently advancing my education with a Master's in Data Science and its Applications. Proficient in web application design (HTML, CSS, React, JavaScript) and data analytics (Excel, Power BI, Tableau), I have contributed significantly to product development and agile framework scaling. My skill set includes a strong aptitude for requirements analysis and a strategic, growth-focused approach to product management.

Work History

Deloitte, Consultant

06/2022 – 05/2023

At Deloitte, I led the development of a chatbot, overseeing UI/UX design and API integration. Collaborating closely with the design team, I optimized product UI/UX. Working with product management and technical stakeholders, I scheduled and detailed projects, ensuring data quality through rigorous tracking methods during data analysis using tools like Microsoft Excel, SQL, and Power BI.

Gurugram, India

UST Global, Developer II

11/2021 – 05/2022

At UST Global, I led the development of an insurance portal for Marriott as a Frontend Developer, utilizing React.js, Rest, MySQL, Java Backend, and git. Active in Scrum ceremonies, I enhanced web functionality by crafting responsive templates, integrating APIs, and implementing reusable React components to address UI/UX issues identified by testers.

Bangalore, India

Cognizant, Programmer Analyst

02/2019 – 11/2021

At Cognizant, I oversaw project implementation, focusing on planning, tracking, and documentation. Proficient in SNOW, I managed incident resolution and contributed to application improvements. Additionally, I provided valuable insights through Power BI visual reports, impacting cost reduction in the pharmaceutical sector.

Bangalore, India
